

TABLE OF CONTENTS

Sl. No.	Title	Page No.
1.	Declaration by the scholar	i
2.	Certificate by Supervisor	ii
3.	Certificate by Co-Supervisor	iii
4.	Certificate for Plagiarism	iv-xi
5.	Certificate for viva voice of Ph.D. Scholar	xii
6.	Undertaking for submission of Ph.D. Thesis	xiii
7.	Acknowledgements	xiv-xvi
8.	List of Figures	xvii-xviii
9.	List of Tables	xix-xx
10.	List of Abbreviation	xxi-xxv
11.	Abstract	xxvi-xxx
12.	Chapter 1 – Introduction	1-16
	General Introduction: Actinobacteria	1
	Actinobacteria: Source of Natural Agents to fight against Pathogens	1-3
	Actinomycetes: Characteristics	4-6
	Actinomycetes: Life Cycle and Importance of Metabolites	6-9
	Actinomycetes: Role in Pesticides Degradation	9-12
	Hypothesis	12-13
	Key questions	13

	Objectives	14
	Organisation of thesis	15-16
13.	Chapter 2 – Review of Literature	17-52
14.	Chapter 3– Materials and Methods	53-63
	Soil Sample Collection and Preparation	53
	Isolation of Actinomycetes	53
	Aerial Mass Colour	54
	Melanoid Pigments	54
	Reverse Side Pigment	54
	Soluble Pigments	55
	Spore Chain Morphology	55
	Reproductive Structure Surface	55
	Screening of isolates for PGPR traits	56
	IAA production	56-57
	Solubilisation of phosphate	57
	Siderophores and HCN Production	57-58
	Catalase activity	58
	Screening of actinobacterial isolates for monocrotophos pesticide degradation	58
	Primary Screening	58
	Determination of zone of clearance of pesticide degradation	58-59
	Secondary Screening	59
	Determination of pesticide degradation by culture streak technique	59
	Gene expression of potential Actinobacteria isolates within E. coli cells	59-60

	Microbial decomposition of monocrotophos pesticides	60
	Assessment via High-Performance Liquid Chromatography	60-61
	Actinobacterial Strain Formulations	61
	Granular Formulation Derived from Alginate-Kaolin (AL-KAO Composition)	61-62
	Granular Formulation Derived from Flour-Kaolin (FLO-KAO formulation)	63
	Formulation of a Powder Composed of Calcium Carbonate and CMC (CC-CMC powder formulation)	63
	Statistical analysis	63
16.	Chapter 4 – Results	64-96
17.	Chapter 5 – Discussion	97-100
18.	Chapter 6 – Conclusions and Future Prospects	101-106
19.	Chapter 7 – Summary	107-111
20.	References	112-135
21.	LIST OF PUBLICATIONS & CERTIFICATES	136- 158
