

DECLARATION BY THE CANDIDATE

I, **Anjali Uniyal**, declare that the thesis entitled “**To Study the Genetic Diversity and Comparative Phytochemical Analysis in *Rheum* Species**” is my own work conducted under the supervision of **Dr Akhilesh Kumar** (Supervisor) and **Dr Sanjay Gupta** (Co- Supervisor) at Swami Rama Himalayan University, Himalayan School of Biosciences approved by D.R.C.

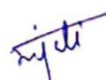

I further declare that to the best of my knowledge the thesis does not contain any part of any work which has been submitted for the award of any degree either in this University or in any other University/ Deemed University without proper citation.

Besides this:

I have successfully completed the Course work of one semester as per UGC-Regulation 2016 norms.

I have also given a pre-Ph.D. presentation and successfully incorporated the changes suggested on the basis of feedback and comments received.

I have also published one research paper in a journal from the research work of the thesis and presented two papers in Conferences/Seminars and has produced evidence of the same in the form of acceptance letter/or the reprint.

CERTIFICATE

This is to certify that **Anjali Uniyal** in the Department of **Biosciences** of this University has fulfilled the requirements prescribed for the Ph.D. degree of the Swami Rama Himalayan University, Dehradun.

The thesis entitled, "**To Study the Genetic Diversity and Comparative Phytochemical Analysis in *Rheum* Species**" was carried out under my direct supervision. No part of the thesis was submitted for the award of any degree or diploma prior to this date.

Dr. Sanjay Gupta

CERTIFICATE FOR PLAGIARISM

It is certified that PhD Thesis entitled “**To Study the Genetic Diversity and Comparative Phytochemical Analysis in *Rheum* Species**” has been examined by us. We undertake & declare that:

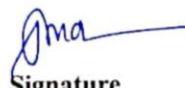

- a. This thesis has significant new work/knowledge as compared to already published or are under consideration to be published elsewhere. No sentence, equation, diagram, table, paragraph, or section has been copied verbatim from previous work unless it is placed under quotation marks and duly referenced.
- b. The work presented is original and own work of the author (i.e., there is no plagiarism). No ideas, processes, results, or words of others have been presented as Author’s own work.
- c. There is no fabrication of data or results which have been compiled/analyzed.
- d. There is no falsification by manipulating research materials, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.
- e. The thesis has been checked using TURNITIN (copy of originality report attached).

Undertaking for submission of Ph. D. thesis

I solemnly declare that research work presented in the thesis titled “**To Study the Genetic Diversity and Comparative Phytochemical Analysis in *Rheum* Species**” is solely my research work with no significant contribution from any other person. Small contribution/help wherever taken has been duly acknowledged and that complete thesis has been written by me.

I understand the zero-tolerance policy of the SWAMI RAMA HIMALAYAN UNIVERSITY (SRHU) towards plagiarism. Therefore, I as an Author of the above titled thesis declare that no portion of my thesis has been plagiarized and any material used as reference is properly referred/cited.

I undertake that material of the thesis submitted in hard bound and soft copy are same and no alteration has been done. If found guilty in future University may take any action against me.

I undertake that if I am found guilty of any formal plagiarism in the above titled thesis even after award of PhD degree, the University reserves the rights to withdraw/ revoke my PhD degree.

Acknowledgement

First and foremost, I would like to thank the Almighty God for his support, guidance, and blessings throughout the journey of completing this thesis. His heavenly presence has been a source of strength, comfort, and inspiration during the highs and lows of this journey.

I am deeply grateful as I stand at the culmination of my doctoral journey, ready to submit this thesis, which represents years of dedication, hard work, and unwavering support. This accomplishment would not have been possible without the contributions and encouragement of numerous individuals that have played an integral role in shaping my academic and personal growth.

First and foremost, I extend my heartfelt gratitude to the honorable Chancellor Sir Dr. Vijay Dhasmana, Vice Chancellor Dr. Rajendra Dobhal and all the esteemed dignitaries of Swami Rama Himalayan University for providing an environment that nurtures academic excellence and research innovation. Your visionary leadership has guided us through the pursuit of knowledge and has been a constant source of inspiration.

I express my sense of gratitude to our research advisor Dr. C.S Nautiyal Sir for his expertise and advice throughout my work. I am indebted to our esteemed Principal Sir, Himalayan School of Biosciences, Prof Sanjay Gupta who has been a pillar of support throughout my academic pursuit. Your guidance and encouragement have fueled my determination to overcome challenges and reach this milestone.

I extend my sincere gratitude to my esteemed guide, my thesis supervisor, mentor Dr. Akhilesh Kumar whose expertise, and support have been instrumental in shaping my research and in the completion of this thesis. Your dedication to guide

me through the complexities of research have been invaluable. He has not only shared his expertise but also shown immense faith in my abilities, I am profoundly grateful. Your patience, encouragement, and willingness to invest in my academic journey have been the driving forces behind my accomplishments.

I am thankful to Uttarakhand Council of Biotechnology, Haldi for providing the funding to carry out this research work. I would like to express my heartfelt thanks to my dedicated faculty members, Dr. Vijay Kumar, Dr. Vivek Kumar, Dr. Kumar Sachin, Dr. Geeta Bhandari, Dr. Archana Dhasmana, Dr. Vishal Singh Rajput, Dr. Vikas Jadon and Dr. Nupur Joshi for their immense support. Their knowledge, feedback, and constructive criticism have played a pivotal role in refining my research work.

To my fellow lab mates, Sweta Upadhyay, Megha, Renu, Komal, Geeta, Himani, Ashima thank you for the insightful discussions and the shared pursuit of knowledge. Thank you all for providing the mental support when I was needed. A special mention goes to my supportive student Abhilekh Sati and his family for helping me to collect samples to carry out my research work. I would like to express my appreciation to my dedicated lab assistants and office staff V. Rawat, Harsh, Yogita, Sukhwinder Singh and Jagdish Singh whose assistance and technical expertise have been invaluable in the execution of my experiments. I would also like to thank the staff of Research and PhD cell for their support and help.

I owe a debt of gratitude to my family, whose firm belief in me and unconditional love have been my support throughout this journey. Your sacrifices, encouragement, and understanding have fueled my determination to achieve this significant milestone. I want to take a moment to express my deepest thanks to

my daughter Vidushi Uniyal for being the wonderful and considerate kid I'll ever have.

Lastly, I dedicate this accomplishment to my late nights, early mornings, moments of frustration, and eventual breakthroughs. Each experience has shaped me into the researcher I am today.

This thesis stands as a testament to our collective effort, dedication, and passion for knowledge. Thank you all for contributing to this achievement and for being an integral part of my journey.

With profound gratitude,

Anjali Uniyal

Swami Rama Himalayan University
