

## **DECLARATION BY THE STUDENT**

I, Neeti Sharma, declare that the thesis entitled “A study to develop and evaluate the effectiveness of a need- based, interventional package on awareness and self- efficiency of primary caregivers in care of children during primary immunizations in selected health facilities” is my own work conducted under the supervision of Dr. Sanchita Pugazhendi and Dr. Jayanti Semwal (Supervisor/Co-Supervisor) Himalayan College of Nursing, Swami Rama Himalayan University, 13<sup>th</sup> February 2019 approved by DRC.

I further declare that to the best of my knowledge the thesis does not contain any part of any work which has been submitted for the award of any degree either in this university or any other university/deemed university without proper citation.

**Besides this:**

I have successfully completed the course work of one semester as per UGC- Regulations 2016 norms. I have also given a pre-PhD presentation and successfully incorporated the changes suggested on the basis of feedback and comments received. I have also published one research paper in a journal from the research work of the thesis and presented two papers in conferences and have also produced an evidence of the same in the form of acceptance letter/the reprint.

**Neeti Sharma**

**Reg no- DD20175070005**

# **CERTIFICATE**

This is to certify that Neeti Sharma of Himalayan College of Nursing of this University has fulfilled the requirements prescribed for the Ph.D. degree of the Swami Rama Himalayan University, Dehradun. The thesis entitled, "A study to develop and evaluate the effectiveness of a need-based, interventional package on awareness and self-efficiency of primary caregivers in care of children during primary immunizations in selected health facilities" was carried out under my direct supervision. No part of the thesis was submitted for the award of any degree or diploma prior to this date.

\*Clearance was obtained from the University Ethics Committee/ University Animal Ethics for carrying out the study

**Dr. Sanchita Pugazhendi**  
**Professor**  
**Himalayan College of Nursing**  
**Swami Rama Himalayan University**

# CERTIFICATE

This is to certify that Neeti Sharma of Himalayan College of Nursing of this University has fulfilled the requirements prescribed for the Ph.D. degree of the Swami Rama Himalayan University, Dehradun. The thesis entitled, “A study to develop and evaluate the effectiveness of a need- based, interventional package on awareness and self-efficiency of primary caregivers in care of children during primary immunizations in selected health facilities” was carried out under my direct supervision. No part of the thesis was submitted for the award of any degree or diploma prior to this date.

**Swami Rama Himalayan University**

## **CERTIFICATE FOR PLAGIARISM**

It is certified that Ph.D. thesis entitled, “A study to develop and evaluate the effectiveness of a need- based, interventional package on awareness and self-efficiency of primary caregivers in care of children during primary immunizations in selected health facilities” has been examined by us. We undertake & declare that:

- a. This thesis has significant new work/knowledge as compared to already published or are under consideration to be published elsewhere. No sentence, equation, diagram, table, paragraph or section has been copied verbatim from previous work unless it is placed under quotation marks and duly referenced.
- b. The work presented is original and own work of the author (i.e. there is no plagiarism). No ideas, processes, results or words of others have been presented as Author’s own work.
- c. There is no fabrication of the data or results which have been compiled/ analysed.
- d. There is no falsification by manipulating research materials, equipment or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.
- e. The thesis has been checked using TURNITIN software as suggested by UGC (copy of original report attached).

## **Undertaking For Submission of Ph.D. Thesis**

I solemnly declare that research work presented in the thesis titled, “A study to develop and evaluate the effectiveness of a need- based, interventional package on awareness and self-efficiency of primary caregivers in care of children during primary immunizations in selected health facilities.” is solely my research work with no significant contribution from any other person. Small contribution/help whenever taken has been duly acknowledged and that complete thesis has been written by me.

I understand the zero tolerance policy of the SWAMI RAMA HIMALAYAN UNIVERSITY (SRHU) towards plagiarism. Therefore I as an Author of the above titled thesis declare that no portion of my thesis has been plagiarized and any material used as reference is properly referred/ cited.

I understand that material of the thesis submitted in hard bound and soft copy are same and no alteration has been done. If found guilty in future University may take any action against me. I understand that if I am found guilty of any formal plagiarism in the above titled thesis even after award of PhD Degree, the University reserves the rights to withdraw/ revoke my PhD degree.

## ACKNOWLEDGMENT

I would start with thanking GOD who gave a lot of strength, courage and blessings to complete this project successfully. By His grace, I had the direction and persistence in this pursuit. He has been with me all this time and helped me get through all the difficulties. This wouldn't have been possible without Him by my side.

My guide Dr.Sanchita Pugazhendi (Professor, Himalayan College of Nursing) has been a great supporter and mentor in this research. Without her cooperation and valuable inputs this journey wouldn't have been possible. All through these years, she has tirelessly guided me and helped me reach my destination. Her contemporary knowledge about the research topic has helped provide shape and direction to this project. I would also like to express my sincere gratitude to my co-guide Dr. Jayanti Semwal( Professor, Dept. of Community Medicine) for her insightful comments and suggestions. She has assisted me at every stage of the research project. Her deep knowledge and vast experience have encouraged me in all the time of my academic research.

I would like to express my sincere gratitude Dr.Ajay Gupta (Director of Health Services, H.P) and Dr.Rajan Uppal (Chief Medical Officer, Regional Hospital Solan) for allowing me for this study in the concerned health facilities. I am indebted to all the validators for their expert opinion and sparing time for my study.

I was able to add meaning to this study with the help of Mr.Abhinav Bahuguna, (Statistician ,H.I.M.S, SRHU) who helped me in data analysis. I would also take the opportunity to express gratitude to Dr Kamli Prakash ,Professor, H.C.N and all DRC members whose expert suggestion shaped my study and added coherence to it.

For the English editing I got help of Mr.Chander Mohan Sharma (Project officer Samagra Shiksha ,DIET Solan) and I am indebted to him for his help. Finally, I would like to express my gratitude to all the participant mothers who have shared their experiences and given time for this study. This research would not have been possible without their contribution.

This entire journey would have been impossible without the help of my family members who sacrificed a lot and were patient with me. They extended all the warmth

and support that provided me strength and kept me going. My parent's expectations always motivated me to get past every difficulty and to be strong in every situation. Their prayer for me was what sustained me this far.
